

Hitachi High-Tech Materials Corporation

To Federal Communications Commission

From: Mr. Atsushi Suzuki

Re: Professional Installation

The ARW13T-KNM-HMF is RFID card installed into host product.

Personnel trained would use the final product.

The part 15 requirements will be followed by the personnel trained by the manufacturer. In particularly, special instruction will be given in order to ensure that ferrite cores will be installed on the DC line of the ARW13T-KNM-HMF.

Meanwhile Hitachi High-Tech Materials Corporation will not distribute market nor sold to the general public the ARW13T-KNM-HMF.

Sincerely yours
