

# SO SMART

Enjoy your movie and video files on TV!

Supports a variety of digital video files like DivX 3/4/5-6, Xvid, MPEG, MP4, WMV-9, ASF(WMV9) DVD(IFO, VOB), TS, TP, TRP. Ideally suited for backing up all your DVD movies on a Hard-Disk for easy access.

**Digital Music Box**

A perfect companion for the music junkies. Play variety of audio files like MP3, OGG, WMA, WAV etc. Advanced in-built Jukebox supports customized playlists and music shuffle / repeat functions.

**HD (High Definition) Media Player**

Supports Hi-def video files for crisp and dazzling video playback.

**Digital Photo Album**

Now enjoy your vacation photos with the family. Store and Playback all your digital photos.

Enjoy customized Slideshows with background Music

**HD HDMI Compatible**

Enjoy High Quality, Digital Video Output via HDMI Port. HDMI video output is capable of rendering true HD quality, crisp display on your TV or Large Screen. HDMI-to-VGA adapter can be used for CRT or VGA interface display devices.

**Password Protected Folders**

Secure Private and Special folders using the lock / password function.

**Support NDAS (Network Direct Attached Storage)**

It is useful technology that makes your PC recognize Internal HDD inside MVIX which is connected to your wired or wireless home network

**DTS Passthrough / DownMix**

Capable of Discreet Multi-channel Format with Digital 5.1 Ch Audio Playback. Does not require a separate Audio Decoder.

**Network Playback**

Supports Wired (10/100Mbps) and Wireless (802.1b/g) Media Streaming from Networked-PCs.

**USB2.0 Host**

USB-Host function enables media playback from External Storage Devices like USB Flash Drive, External-HDD or DVD-ROM
