Administration**

JUN - 4 2010

Mr. Andy Leimer
Federal Communications Commission
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

Dear Mr. Leimer:

The Federal Aviation Administration (FAA), Office of Spectrum Engineering Services, has reviewed the Type Acceptance Certification request from NavWorx Incorporated for their ADS600-B Universal Access Transceiver. Recognizing that what was tested is a "pre-production" unit, the FAA has no objections to certification of this device as long as the production units do not vary significantly from what was tested.

Should you have any questions or concerns, please contact Mr. Michael Biggs, Senior Electronics Engineer, Spectrum Planning and International Group, at (202) 267-8241.

Sincerely,

A handwritten signature in black ink, appearing to read "Oscar Alvarez".

Oscar Alvarez
Director, Spectrum Engineering Services
