

Internal View of the EUT

The image shows a LUXUL WIRELESS DF1501S circuit board, model RA002-10, mounted in a metal chassis. The board is populated with various electronic components, including resistors, capacitors, integrated circuits, and a large black component labeled 'ANT'. The chassis has two coaxial connectors on the left and right sides. The board is labeled with 'LUXUL WIRELESS', 'DF1501S', 'RA002-10', and 'MADE IN U.S.A.'.
