

## EN Testing the Reception

Leave at least 20ft (6m) of distance between the Parent and the Child Unit. Have one person begin speaking softly at first, and gradually louder, into the MIC on the Baby Unit. Have another person check the audio quality and other various functions on the Parent Unit.  
Repeat the above test in various places where BabyFigure™ is to be used.

## Troubleshooting

Problem	Possible Cause	Solution
Link light does not light at all	BabyFigure™ is not turned on	Turn on the Power button
	Batteries are discharged	Return the Parent Unit to the Charging Base (Cradle)
	AC Adapter of the Baby Unit is not properly connected or batteries are discharged	Check the connections of AC Adapter jack-to-socket and plug-to-outlet
Battery indicator shows low battery condition	Battery Level is low	Recharge the Unit
Audio feedback volume (squealing)	Child Unit is too close to the Parent Unit	Move the Parent Unit further away from the Child Unit Lower the Volume on the Parent Unit
Link light blinks	Out of range	Operate Parent Unit closer to the Child Unit
	Batteries are low in the Parent Unit	Recharge the Unit
	Batteries are low in the Child Unit	Recharge the Unit
The Parent Unit produces no sound or sound is breaking up	Volume is muted	Adjust the Volume Level on the Parent Unit
	Out of range	Bring the Parent Unit closer to the Child Unit
	Crying Detection Level (CDL) is set too low	Increase the Level

### ◆ Audible Beep Troubleshooting

There are 2 types of Audible Beep and each signifies a different alert.  
1. Out of Audio Link Range : Bring the Parent Unit closer to the Child Unit.  
2. Paging the Parent Unit : Trace the beep to locate the Parent Unit.

## Important Information EN

### 1. Technical Specifications

Item	Details
Power Supply	- 2 X AC Power Adapter DC 5V/300mA with Charging Base for both units (supplied) - Built-in Lithium-Ion Polymer Battery (both units)
Operating Range	- Audio Range : Up to 1,500 meters / 4,920 feet in open air. Walls, doors, metals, etc. will affect range.
Operating Temperature	0°C ~ +40°C (+32°F ~ +104°F)
Standard	<b>Bluetooth Technology</b> By selecting seventy nine 1MHz bandwidth channels within 2.4GHz broadband, Bluetooth technology minimizes the noise and guarantees the privacy through frequency hopping process that changes the channel 1600 times per second.
Dimensions & Weight	Parent Unit : 50.8 X 86.8 X 14.8mm, 50g Child Unit : 50.8 X 63.1 X 14.8mm, 39g

### 2. Default Factory Settings

#### Parent Unit

Loud Speaker Volume : 1  
Select Mode : AUDIO Link Mode  
Voice Instruction : "Baby Alert"- When crying is detected in DATA Link Mode.

#### Child Unit

Loud Speaker Volume : 3  
Crying Detection Level : 3

**3. Compliance Information**

Information relating to FCC / IC ID

FCC ID : W88DJG08080R (Parent Unit)  
W88DJG08080T (Child Unit)

IC : 8270A-08080

This device complies with part 15 of the FCC Rules and RSS-210 of Industry Canada. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**4. Radio & Television Interference**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These Limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**WARNING:** This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made.

Limited Warranty EN

Dorel Juvenile Group Inc. warrants to the original purchaser that this product (BabyFigure ), is free from material and workmanship defects when used under normal conditions for a period of one (1) year from the date of purchase. Should the product contain defects in material or workmanship Dorel Juvenile Group Inc. will repair or replace the product, at our discretion. Purchaser will be responsible for all costs associated with packaging and shipping the product to Dorel Juvenile Group Consumer Relations Department at the address noted below and all other freight or insurance costs associated with the return. Dorel Juvenile Group will bear the cost of shipping the repaired or replaced product to the purchaser. Product should be returned in its original package accompanied by a proof of purchase, either a sales receipt or other valid proof that the product is within the warranty period. This warranty is void if the owner repairs or modifies the product or the product has been tampered with or damaged as a result of misuse.

This warranty excludes any liability other than that expressly stated previously, including but not limited to, any incidental or consequential damages.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS THAT MAY VARY FROM PROVINCE TO PROVINCE.
