

The image shows a laboratory setup for an indoor wind tunnel. A large, dark, curved metal duct is visible in the background, with a bright light source illuminating it. In the foreground, a wooden table supports a white sign that reads "Orpak WGT Indoor". To the right of the sign, a rectangular metal box with a grid of small holes is mounted on a tripod stand. A brass fitting is visible on the side of the box. Several metal rods or tubes extend upwards from the box towards the duct. The overall scene is dimly lit, with the primary light source coming from the background duct area.
