Columbia, MD 21046

Subject: Request For Alternate Identifier Location for FCC ID: WBWRF300

To Whom It May Concern:

NeuroPace, Inc. ("NeuroPace") requests that in accordance with FCC 47 CFR Sections 15.19 and 2.925(f), the FCC ID number associated with the device will be placed in the device manual and on the packaging container in lieu of being placed directly on the implantable device. The RNS-300M, FCC ID WBWRF300, is an implantable medical device for use in humans so a permanently attached label is not desirable or feasible. The application contains the alternative method of identification with a description of the labeling and proposed placement.

Sincerely,

Erica Lundmark, senior design manager
