

ANOTO DIGITAL PEN ADP-501

Introduction

Anoto technology puts the power of digital communication into pen and paper. The use of digital pen and paper enabling Anoto functionality promotes an intuitive and easy-to-use writing experience enabling increased business process efficiency, presentation interactivity and simplifies distribution of hand written information.

The Anoto Digital Pen ADP-501 is a streaming marker pen built to communicate with a host via the standardized Bluetooth HID during use. The Anoto Digital Pen ADP-501 is produced to be used on whiteboards and flipcharts and can be used both as a marker and as a stylus.

In the box

The Anoto Digital Pen ADP-501 is sold including stylus cap and an AAA 1.5V alkaline battery. All pens are shipped with individual barcode labels including the pen ID for tracking. Cartridges are sold separately.

Product availability

The Anoto Digital Pen ADP-501 have the following certifications CE, FCC, IC, VCCI, and is approved for sale in Europe, USA, Canada and Japan. The pen also complies with RoHS and WEEE.
