Subject: Request for Limited Modular Approval: *FCC ID: WDNDP05*

We Anoto AB hereby request application for Single Limited Modular Approval of the module 510058 for integration in the following Anoto Digital Pens.

Anoto Model ADP-501 – Whiteboard marker pen with Bluetooth® radio.

The module is a self contained assembly with integral antenna and has been tested installed in its host product to Part 15B and Part 15.247.

In accordance with FCC Mobile Portable RF Exposure Procedure v03r03 KDB 447498 (2)(a)(1), SAR evaluation is deemed not applicable for all host products due the low transmitter power of the module (-3.7dBm EIRP measured).

No additional radio circuitry has been incorporated in the pen model integration, and the 510058 module remains unchanged in all cases.

Yours sincerely
