## ! Remember, driving comes first, not the call !

Using a mobile phone while driving can distract you and increase the likelihood of an accident. If driving conditions demand it (such as bad weather, high traffic density, presence of children in the car, difficult road conditions), pull off the road and park before making or answering calls. Also, try to keep conversations short and do not make notes or Read documents.

### Instruction:

Tap

Press

Press and hold

### Duration of press:

Press briefly

Approx: 1 second

Approx: 5 seconds

## Troubleshooting & FAQ

### I hear crackling noises

For the best audio quality, always wear your headset on the same side of the body as your mobile phone.

### I cannot hear anything in my headset

- \* Increase the volume on the headset
- \* Ensure that the headset is paired with the phone
- \* Make sure that the phone is connected to the headset—if it does not connect either from the phone's Bluetooth menu or by tapping the answer/end button, follow the pairing procedure.

### I have trouble pairing LORO WAVE with my phone

1. You may have deleted your headset pairing in your mobile phone. Follow the pairing procedure.
2. You can pair your LORO WAVE with different phones or Bluetooth devices. If your headset is connected to another phone or other Bluetooth devices, disconnect the LORO WAVE from the previously used phone using the phone set up menu.
3. There is also the possibility that the LORO WAVE is searching for a device to connect to. Wait about 30 seconds and try again.
4. Check the phone screen to ensure that the LORO WAVE is not awaiting a response from your mobile phone set up menu.

### I cannot use Reject call, Call on hold, Redial or Voice dialing

These functions are dependent on your phone supporting them. Please check your phone's manual for further details.

## LORO WAVE....Taking care of your headset

For optimal performance, wear the LORO WAVE and your mobile phone on the same side of your body or within line of sight. In general, you will get better performance when there are no obstructions between your headset and your mobile phone.

1. Always store the LORO WAVE with power off and safely protected.
2. Avoid storage at high temperatures (above 60 deg.C/134 deg.F) –such as in a hot vehicle or in direct sunlight. (Storage at high temperatures can degrade performance and reduce battery life.)
3. Do not expose the headset or any of its supplied parts to rain or other liquids.

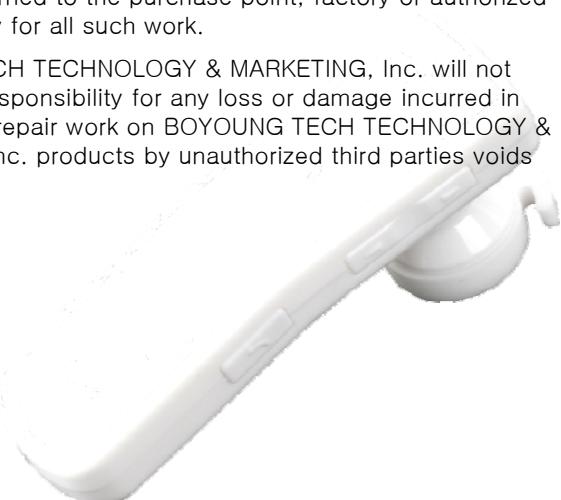

## Warranty

BOYOUNG TECH TECHNOLOGY & MARKETING, Inc. warrants this product against all

Defects in material and workmanship for a period of one year from the Date of original purchase. The conditions of this warranty and our Responsibilities under this warranty are as follows:

- The warranty is limited to the original purchase.
