Re: FCC ID: WGJ-XBEEOMNI

To Whom It May Concern:

The following application is submitted on behalf of our client, Meggitt Training Systems, Inc., for evaluation of their model 1043024 for certification under FCC Part 15.247.

The 1043024 is a standalone module that is designed to operate within the ZigBee protocol and support the unique needs of low-cost, low-power wireless sensor networks. This filing is to add a new antenna type.

Radiated emissions were performed on the 1043024 to demonstrate that the new antenna complies with the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
