

FCC ID: WJ4FH915

**Part 15 Unlicensed Modular Transmitter Approval Justification
per DA 00-1407, released: June 26, 2000**

requirement	Reference
1 The modular transmitter must have its own RF shielding.	The FH915 has its own RF shielding.
2 The modular transmitter must have buffered modulation/data inputs	The FH915 is buffered
3 The modular transmitter must have its own power supply regulation.	The FH915 is regulated internally
4 The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c).	The FH915 complies with antenna requirements
5 The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing.	The FH915 is tested with support board
6 The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The FH915 will be labeled with its own FCC ID number
7 The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	The FH915 complies with technical instruction for OEM
8 The modular transmitter must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4).	The FH915 complies with any applicable RF exposure requirements
