Data Protection
 Please be aware that SKYWORTH, its manufacturing partners, the application providers and the providers of the services may collect and use technical data and related information, including but not limited to technical information about the device, system and application software and peripherals. SKYWORTH, its manufacturing partners, the application providers and the providers of the services may use such information to improve its products or to provide services or technologies to you, as long as it is in a form that does not personally identify you. Additionally, please be aware that some services provided by SKYWORTH, its manufacturing partners, the application providers and the providers of the services may require a registration for which you have to provide personal data. Besides that, please be aware that some services which are not provided but can be installed may collect personal data even without providing additional warnings and that SKYWORTH can not be held liable for a possible breach of data protection by services not provided.

Storage
 Your device has been carefully checked and packed before shipping. When unpacking it, make sure that all the parts are included and keep the packaging away from children. We recommend that you keep the carton during the warranty period, to keep your device perfectly protected in the event of repair or warranty.

Software Description
 This product includes a software that is restricted to be modified by a third party. The manufacturer reserves the right to publish software updates for maintenance or introducing new features.

Operating Environment
 Do not install this equipment in a confined space such as a bookcase or similar unit. Do not use the set near sleeping and child areas, protect the set from overheating. Keep away from open fire. Do not use the set near electrical devices. Do not place a combi-rack in the opening area, to avoid flammable foreign material from entering the device.

WARNING
 Only use attachments/accessories specified or provided by the manufacturer (such as the original supply adapter/battery etc.). Any other adaptor may cause damage to the device. Such damage is not covered under warranty. Please refer the information on the product enclosure for electrical and safety information before installing or operating the apparatus. To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that objects filled with liquids, such as vases, shall not be placed on top of it. The ventilation fan shall not be impeded by covering the ventilation openings with items, such as newspapers, table-cloths, curtains, etc. The batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunlight, fire or the like. The mains adaptor power source (direct plug-in adapter or used as disconnect device, the disconnect device is not recommended).

Data Protection
 Please be aware that SKYWORTH, its manufacturing partners, the application providers and the providers of the services may collect and use technical data and related information, including but not limited to technical information about the device, system and application software and peripherals. SKYWORTH, its manufacturing partners, the application providers and the providers of the services may use such information to improve its products or to provide services or technologies to you, as long as it is in a form that does not personally identify you. Additionally, please be aware that some services provided by SKYWORTH, its manufacturing partners, the application providers and the providers of the services may require a registration for which you have to provide personal data. Besides that, please be aware that some services which are not provided but can be installed may collect personal data even without providing additional warnings and that SKYWORTH can not be held liable for a possible breach of data protection by services not provided.

CAUTION
 Change of equipment if battery is incorrectly installed. Do not use with the same or equivalent type. Do not use equipment if the battery is replaced by an incorrect type. Disposal of batteries: Use old and new types or brands. Do not mix. Do not use a battery that can result in an explosion, even if the battery is not normally used. Do not use the equipment in an environment where the temperature is above 40°C or below 0°C. Do not use the equipment in an environment where the humidity is above 90% or below 10%. Do not use the equipment in an environment where the pressure is above 1013 hPa or below 960 hPa.

This equipment is a Class B or A limited electromagnetic interference (EMC) product. It has been designed in such a way that it does not require safety connection to electrical parts.

For the terminal marked with symbol **⚡** a max. level of sufficient magnitude to constitute a risk of electric shock. The antenna wiring connected to the terminals requires installation by an instructed person or the level of ready-made leads or cords.

WARNING
 This lightning flash with arrowhead symbol within an equilateral triangle indicates that the user is at risk of electric shock if the product enclosure that may be of sufficient magnitude to constitute a risk of electric shock. Warning: To reduce the risk of electric shock, do not remove cover (or back) as there are no user-serviceable parts. Refer to the user manual for more information. The information with an equilateral triangle is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying the equipment.

WEEE Directive
 Correct disposal of this product. This marking indicates that this product should not be disposed with other household wastes through the local authority. To prevent possible harm to the environment or human health from potential waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. For more information on recycling, please see the return and collection system in contact with the retailer where the product was purchased. They can take this product to an environmentally safe recycling.

FCC Statement
 This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used properly, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in certain installations. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a different circuit than the receiver.
- Consult the dealer or an experienced radio/TV technician for help.

To avoid an unbalanced antenna, any changes or modifications not expressly approved by the manufacturer may void the user's authority to operate this equipment.

This equipment is compatible with the use of connecting to computer or peripheral devices.

This equipment is compatible with the use of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:
 This equipment complies with FCC Radiation Exposure Limits set forth for uncontrolled environments. The maximum SAR is 0.02 W/kg and operated with minimum distance 20cm between the radiator and your body.
