

## OPERATIONAL DESCRIDPTION

1. Supply voltage: 3.0Vdc from batteries
2. Frequency of operation: 2402~2480 MHz
3. Number of channels: 79
4. Antenna type: Printed Antenna
5. Antenna gain: 0dBi
6. Antenna connector: Soldered on PCB
7. Introduction of the device: The device is Bluetooth Remote Controller
8. Related antenna connector photo:
