## Battery Information

This device is powered by a rechargeable battery. It can be charged and discharged hundreds of times. Do not leave a fully charged battery connected to a charger, since overcharging may shorten its lifetime. Always try to keep the battery between 15°C and 25°C (59°F and 77°F). A device with a hot or cold battery may not work temporarily, even when the battery is fully charged. Do not dispose the battery in a fire as they may explode. Battery may also explode if damaged. Dispose batteries according to local regulations. Please recycle when possible. Do not dispose as household waste

## FCC Notice To Users

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, Which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following Measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: 1.) This device may not cause harmful interference, and 2.) This device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

- Play / Pause / Stop Music

	UP	DOWN
Volume	+	-
Track	Prev	Next

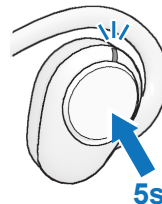

## STEP 1 Charging battery

**4** Hours

- Plug the USB cable into the USB Charging Port and the other end into the PC/Mac's USB socket.
- Charge battery for at least **4 hours** before first use. The red indicator light is displayed during charging. When the battery is fully charged, the red indicator light will turn off.

## STEP 2 Pair the headset

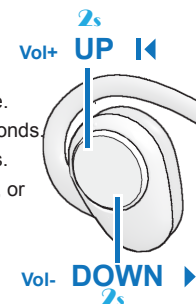

**5** s

- Put headset in pairing mode by pressing power button for approximately **5 seconds**, and the indicator light will flash between red and blue.
- Find the Bluetooth menu in your mobile phone or PC. Turn Bluetooth on and search for devices : '**VIVE**'.
- Enter the passkey: **0000**. If the pairing is successful, the blue indicator light flashes slowly. If the pairing fails, turn off the headset & try again.

## STEP 3 Enjoy your music

- Press the volume key up to increase or down to decrease the volume.
- To Skip Back to previous song: Press the volume down key for 2 seconds.  
To Skip Forward to next song: Press the volume up key for 2 seconds.
- To Play/Pause, or Stop music: Press the Power button to play/pause, or press twice to stop the music.

## STEP 4 Receive a call

- When you receive a call, you will hear ringing on your headset. To answer the call, press the Power Button, or use the phone keys. If the automatic answer function is on, the phone automatically answers the incoming call after one ring.
- To reject an incoming call, press the Power button twice, or use the phone keys.
- To end a call, press the Power button, or use the phone keys, or it will return to music automatically when the call is finished.

## STEP 5 Turn on/off headset

- To turn headset on, press and hold Power button for 2-3 seconds until the red indicator light flash once. If connecting is successful, the blue indicator light flashes slowly.
- To turn headset off, press and hold Power button for 2-3 seconds until the indicator light turns off.
