Quick Reference Guide

OTOFIX D1 Plus D1 Max

Thank you for purchasing this OTOFIX D1 Plus diagnostics tool. This tool is manufactured to a high standard and will provide years of trouble-free performance when used in accordance with these instructions and properly maintained.

OTOFIX D1 Plus

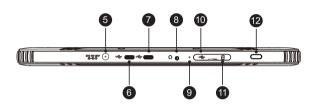

- 1. 10.4-inch Touchscreen
- 2. Ambient Light Sensor detects ambient brightness
- 3. Front Camera
- 4. Power LED
- 5. DC Power Supply Input Port
- 6. USB Port
- 7. USB Port
- 8. Headphone Jack
- 9. Microphone
- 10. Mini USB Port
- 11. SD Card Slot
- 12. Power/Lock Button turns the device on & off with long press, or locks the screen with short press
- 13. Speaker
- 14. Rear Camera
- 15. Camera Flash
- 1. Flashlight Button
- 2. Power LED
- 3. Vehicle/Connection LED
- 4. Vehicle Data Connector (16-pin)
- 5. USB Port

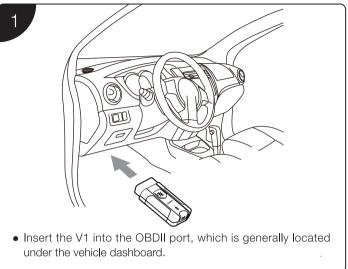

OTOFIX V1 Description

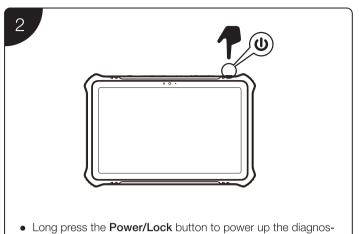

LED	Color	Description		
	Yellow	VCI is powered on and performing self-check.		
Power LED	Green	VCI is ready for use.		
	Flashing Red	Firmware is upgrading.		
Vehicle/Connection LED	Green	Solid Green: VCI is connected via USB cable.Flashing Green: VCI is communicating via USB cable.		
Tomoto Service Control	Blue	Solid Blue: VCl is connected via Bluetooth. Flashing Blue: VCl is communicating via Bluetooth.		

Getting Started

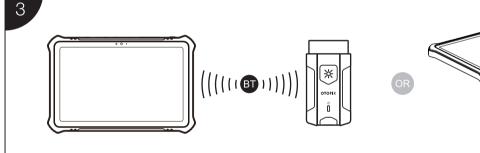

IMPORTANT: Before operating or maintaining this unit, please read the Quick Reference Guide carefully, paying extra attention to the safety warnings and precautions. Failure to use this unit correctly may cause damage and/or personal injury and will void the product warranty.

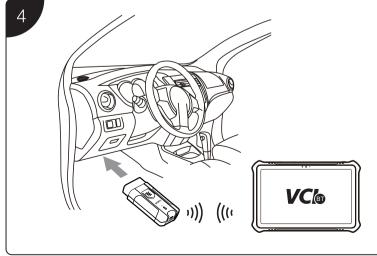

Insert the V1 into the OBDII port, which is generally located under the vehicle dashboard.

tics tablet. Ensure the tablet has a charged battery or is connected to the supplied DC power supply.

- Pair up the diagnostics tablet with the V1 via Bluetooth to establish a communication link.
- NOTE: The diagnostics tablet and the V1 are configured to automatically synchronize with each other on the initial use, therefore, the pairing is not required.
- Pair up the diagnostics tablet with the V1 via USB to establish a communication link.

 When the V1 is properly connected to the vehicle and the diagnostics tablet, the VCI status button at the bottom bar on the screen displays a green badge. This indicates your diagnostics tablet is ready to start vehicle diagnosis.

FCC STATEMENT: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device must accept any interference received, including Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This explainment has been tested and found to emply with the NOTE: This equipment has been tested and found to emply with the NOTE: This equipment has been tested and found to emply with the NOTE: This equipment has been tested and found to emply with the NOTE: This equipment has been tested and found to emply with the NOTE: This equipment are not a residential installation. This equipment generates uses and can radiate radials frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference in a residential installation. It has equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is explained to receive the interference by one or more of the following measures: Received or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment. The device can be used in portable exposure condition without restriction. IC STATEMENT: English: This device complies with industry Canada licence-exempt RSS standard(5). Operation is subject to the following reaction of the device. French:		2 3 4	5 6		. 7	8
This device complies with Part 15 of the FCC Rules. Operation is subject to the following interference, and (2) This device may not cause harmful interference, and (2) This device may not cause harmful interference, and (2) This device may not cause undesired operation.
