of Transportation  
**Federal Aviation  
Administration**

JUL - 9 2009

Mr. Andy Leimer  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

Ref: Federal Communications Commission (FCC) certification of  
Dynon Avionics Transceiver, Model DX15, FCC ID: WU6-101204-000

Dear Mr. Leimer:

We have received the Dynon Avionics letter, dated June 4, 2009, notifying us of their application for FCC certification of the transceiver, Model DX15, and have completed the subject review. We have no objection to the FCC certification of this very high frequency (VHF) transceiver, as far as equipment characteristics only; we do not look at the intended use in this case. This equipment will be operating in the aviation protected VHF band of 118.0 MHz to 136.975 MHz, within the United States national air space.

If you require any additional information, please contact Ms. Annette Allender, Spectrum Planning and International Group, at (202) 267-3893.

Sincerely,

*for* Robert A. Frazier  
Manager, Spectrum Planning and  
International Group
