Instructions

1   Connect the charger to the computer, using the USB interface.
2   **Charge your Car Mouse:** Place the Mouse on the Charger. While charging, all headlights and backlights will be lit. When charging is completed, the headlights will be switched off.
3   **Switch on your Car Mouse:** Move the 3-step switch in the floor of the car to position 3 to power the mouse. Headlights and backlights will light up. Energy Saving Mode: Choose position 2 to switch off the lights.
4   **Activate your Car Mouse:** Press button B on the Charger shortly, then button A on the car floor. Your Mouse is ready for action!
5   **Switch off your Car Mouse:** Change the switch in the floor of the car to position 1 and place the Mouse on the Charger for a refill.
