**Product:** Midnight Club Los Angeles Mini Saleen RC Car  
**Model Number:** 27039

Thanks for you to buy this mini toy car! Take out the car and its remote control from the pack. Open battery compartment cover of the remote control and install 4 batteries AA size. Open a door at right side and take out a charge line. The toy car has a rechargeable battery inside. Switch off the car and charge the car through the remote control. When charging, a 5 mm LED of the remote control is light on. It will light off after 4-6 minutes when the car is fully charged.

Choose a plane to play. Switch on the car at ON position. A red 3mm LED is light on. Pull out antenna, put the car on the plane, control the car forth, back, turning left or right and acceleration by the remote control. The RF control distance is 10 to 15 meters. You can play the car 10 to 15 minutes. You need to charge the car again if it is moving slowly.

## Federal Communication Commission Interference Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  - (1) This device may not cause harmful interference, and
  - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Pls. switch off both the car and its remote control after use.**
