RE: Declaration of Host Similarity for FCC ID: **WUW-SXPCEAC2**

To Whom It May Concern:

This letter serves as an attestation of similarity between the ONA-800A-MF portable host that is currently referenced in the grants for FCC ID WUW-SXPCEAC2 and VIAVI Solution's new ONA-800A-MF2 portable host. Physical construction of the two products is identical. The antennas and their locations are also unchanged. The only difference is that the latter's printed circuit board has relatively minor changes to components and circuits. Due to the minimal nature of this change and the circuit changes being unrelated to performance of the embedded radio module associated with the above referenced grant, VIAVI Solutions believe that previously reported test results will remain unaffected by this change.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in blue ink, reading "Jaryk Kuzel".
