

## Product Introduction

### Transmitter:

1. Operation Voltage: DC12V
2. Operation Current:  $\leq 10\text{mA}$
3. Transmit Power:  $\leq 100\text{mW}$
4. Transmit Frequency: 315MHz
5. Modulation Mode: ASK
6. Coding Type: fixed code
7. Transmit distance: 50~100m(Open space)
8. Operation Temperature:  $-10^\circ\text{C} \sim +60^\circ\text{C}$

#### Application

Remote motor door, curtain, elevator, traction engine and switch. security defend. Used for alarms of defending thief on Electric Car Toys and Zentralverriegelung.

### Federal Communication Commission Interference Statement:

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
