IC: 3100A-876

Subject: Accu-Chek Aviva Connect Meter Test Results

The test data for the Accu-Chek Aviva Connect Meter dated July 25th thru October 24th of 2013 is still valid. The electrical and mechanical design has remained unchanged. The delay in submission was due to the availability of the user manual.

A handwritten signature in black ink that appears to read "Tony Helein". To the right of the signature is the date "11/14/2014".

Tony Heleine

Principal R&D Engineer
