FCC ID WXVCSB200

Reference 36931.

- Please find submitted test reports as per your request.
- Justification letter as the CSB200 is a variation of the Software Radio Technology unit SRT-MTB-OEM Class B AIS.
- Revised User manual version R3.1. This manual includes the FCC Warning statement and details on how to check the data that is programmed into the unit. All equipment will be supplied with this User Manual together with a read only proAIS program so that the end user can verify and check operation of the unit but cannot program any data into it.
- Programming Manual version R1.0 to be supplied to the vendor of the device. This manual will be supplied with a programming version of the proAIS programming allowing the vendor to pre-program the unit.
- Internal photos with the shields removed.
- Confidentiality letter.

A handwritten signature in black ink, appearing to read 'P.R. Cotton'.

P.R.Cotton
