

2200 Circuit Description

1. 2200 is the main board of 6950020/6951020. It contains a microchip which style is AT89S52, the Y1 is generated the 11.0592MHz clock signal to it.
2. 6950020/6951020 include 2200 main board, 0307 display board, auxiliary power supply circuit and 1902v1.1 EMI board. Display board and IGBT controlled by main board.
