

PORTABLE CABINET LED LUMINAIRES

Model No.: FC-3400-LED, FC-3410-LED, FC-3500-LED, FC-3510-LED, FC-3520-LED, FC-3530-LED, FC-3550-LED, FC-3560-LED, FC-3570-LED, FC-3571-LED, FC-3580-LED, FC-3590-LED, FC-3595-LED, FC-3596-LED, FC-3600-LED, FC-3610-LED, FC-3650-LED, FC-3660-LED, FC-3700-LED, FC-3710-LED.

Read instructions and review all diagrams before installing fixture

CAUTION

1. Turn off main power at the circuit breaker before installing the fixture, in order to prevent possible shock. All electrical connections must be in accordance with local and national electrical code (N.E.C.) Standards. If you are unfamiliar with proper electrical wiring connections, please obtain the services of a qualified electrician.
2. LED lamp cannot be replaced.
3. For indoors use only. Do not use this lamp with dimmers.

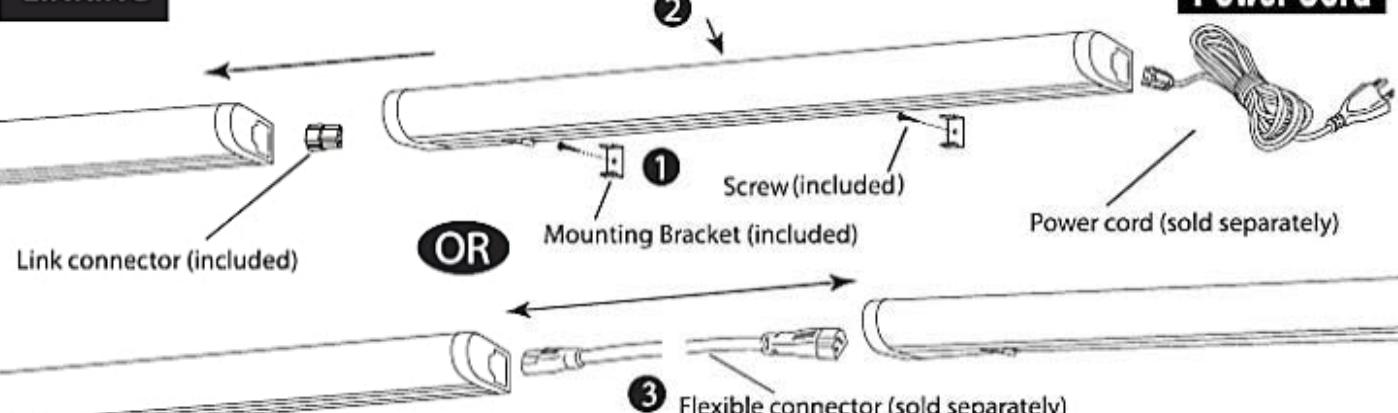

Installation Instructions

1. Install the 2 brackets with the screws provided.
2. Ensure the two brackets are mounted in a straight line. Press bar lamp body into the brackets.
3. When necessary, the bar lamps may be connected in series by removing the outlet socket cover and plugging in either the hard link connector or optional flexible connectors. Max 10 bars can be connected together.
4. For Hardwire installations, the optional Hardwire Box must be used.

LINKING

Use link connector or flexible connector to connect two T5 LED Bars directly.

Power Cord

FCC Notice

NOTE: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: This manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
