operation principle

Intel N270 latest mobile computation technology adopted

CPU

Intel N270 1600MHz

Chipset

Intel 945GME

System memory

DDRII SO-DIMM socket, which can be expanded to 2GB to the maximum extent.

Displaying memory

Dynamic DDR distribution technology, DDR is 128M

Screen

12.1" WXGA color liquid crystal LCD with 1366*768 of resolution

11.6" WXGA color liquid crystal LCD with 1366*768 of resolution

11.1" WXGA color liquid crystal LCD with 1366*768 of resolution

10.0" WXGA color liquid crystal LCD with 1024*600 of resolution

Keyboard

97 keyboard

Touch pad

Touch pad with 2 buttons

HD

2.5"   height 9.5mm   SATA interface

Sound effect

Integrated Realtek Alc662 HD Audio, built around two speakers and MIC,

With Audio / MIC combo interface to an external earphone, headset.

Camera

130W Pixel (Optional fuction)

I/O interface

2 USB 2.0 port

1 DC-IN socket

Audio&Mic two in one

1 HDMI port

Wireless network

Build in wireless netbook adapter, IEEE 802.11b: 2412 ~ 2462 MHz,IEEE 802.11g: 2412 ~ 2462 MHz

IEEE 802.11b mode: DSSS,IEEE 802.11g mode: OFDM ,The antenna is PIFA type and antenna gain is 2.3dbi max

Power

Power adaptor: 100-24V~50-60Hz 1.5-2A Output: 2.1-3.42A
