**Iridium Satellite User Link Band**

Dear Yoshikawa-san,

The Iridium Satellite user link band is 1617.775-1626.5 MHz L-Band. Iridium Communications Inc., declares that the Iridium Satellite user link band 1617.775MHz-1626.5MHz, for which we possess the license for usage in the USA, is permitted to be used by the satellite communication terminal KDTC730 manufactured by Komatsu.

Yours Sincerely,

Ian N Itz
