January 19, 2010

Federal Communications Commission
Authorization and Evaluation Division

Ref: FCC ID: X4USPC – Request for Limited Split Modular Approval

To whom it may concern,

The day after submitting the application, I had a telephone call with FCC agent Mr. Jim Szliga. As I described to him the architecture of the device, Mr. Szliga drew my attention to the possibility of filling the device as a Limited Split Modular Approval per FCC15.212(a)(2). Although I was unaware of this possibility during the filling of form 731, it is in fact the architecture of the device and therefore, I would appreciate your authorizing the device as a Limited Split Modular Approval.

A separate Attestation Statement (Exhibit 11) provides detailed description of the Split Modular architecture and states how control of the end product into which the module will be installed will be maintained such that full compliance of the end product is always ensured.

Best Regards,

Barak Dar
