

## Request for transmitter Full Modular Approval

### Transmitter Module Characteristics

#### Item Requirements EUT

1	<b>Yes</b>	Have its own RF shielding	Have its own RF shielding Please refer to test report Photos
2	<b>Yes</b>	Have buffered modulation/data inputs (if such inputs are provided),	This module use an integrated chipset (CC2500)for buffer modulation / data inputs Please refer to integrated chipset (CC2500) specifications, Block Diagram and Schematic.
3	<b>Yes</b>	Have its own power supply regulation	Power supply voltage regulation is done inside the RF integrated chipset (CC2500). Please refer to the integrated chipset (CC2500) specifications, Block Diagram and Schematic.
4	<b>Yes</b>	Meet the antenna requirements of Section 15.203	Meet the antenna requirements of Section 15.203 Please refer to antenna informations
5	<b>Yes</b>	Be tested in a stand-alone configuration, i.e., the antenna, AC or DC power and data input/output lines must be connected to the module but, the module must not be inside another case during testing	Please refer to test setup photos
6	<b>Yes</b>	Be labeled with its own FCC ID number, <b>and</b> if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	Be labeled with its own FCC ID number Please refer to Label information
7	<b>Yes</b>	The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	Please refer to User manual, There are no adjustable components in the RF section
8	<b>Yes</b>	Address compliance with the Commission's RF exposure limits in Sections 1.1310 and 2.1093. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF exposure compliance in accordance with Section 15.247(b)(4).	Please refer to test report.
