## Cover letter

FCC ID: X5QGEM0357

Date: 11.15,2010

To meet the Section 15.209 emission requirements in the restricted frequency bands of Section 15.205, the transceiver transmitter power for the GEM0357 module needs to be reduced from the typical maximum setting on the channel 2480 MHz. We will set the power on 0.71dBm at factory. The user cannot change it.
