

Excellence in Compliance Testing

Certification Exhibit

FCC ID: X65T25A

FCC Rule Part: 15.231

ACS Report Number: 10-0008.W03.11.A

Manufacturer: HDC
Model: T-25

Manual

Button One used typically as Unlocked.

Button 2 is typically used as Locked.

Both buttons transmit a unique frequency
suitably for latching or unlatching a paired receiver.

RED LED is a battery confirmation output when
either button is pushed

To replace the T 25 Key Fob battery, the shell of
the transmitter must be removed. Using only a
fingernail, pry between the depression around
the shell and separate the Fob into 2 pieces
exposing the battery as shown in Fig. D.
Replacement batteries are 12v part # GP23A,
CN23A, EL12 and VR22 or similar class battery.

Replacement battery must be installed as shown
in Fig. D. Its orientation is specific to - + polarities
clearly marked.

Replace cover and test.
