

1.0 PURPOSE:

This document is intended to define the artwork file associated with the RW2 Pod Bottom Cover label. It also provides a reference to a procurement specification that defines the details associated with basic raw material and other manufacturing related requirements.

The purpose for having a procurement document is to avoid having to modify the artwork and production tooling for documentation revision changes due to non artwork related updates.

2.0 ARTWORK FILE:

Graphics defined by artwork file “LBL-0365 Label, RW2 Pod, Bottom Cover.ai”

See below for image.

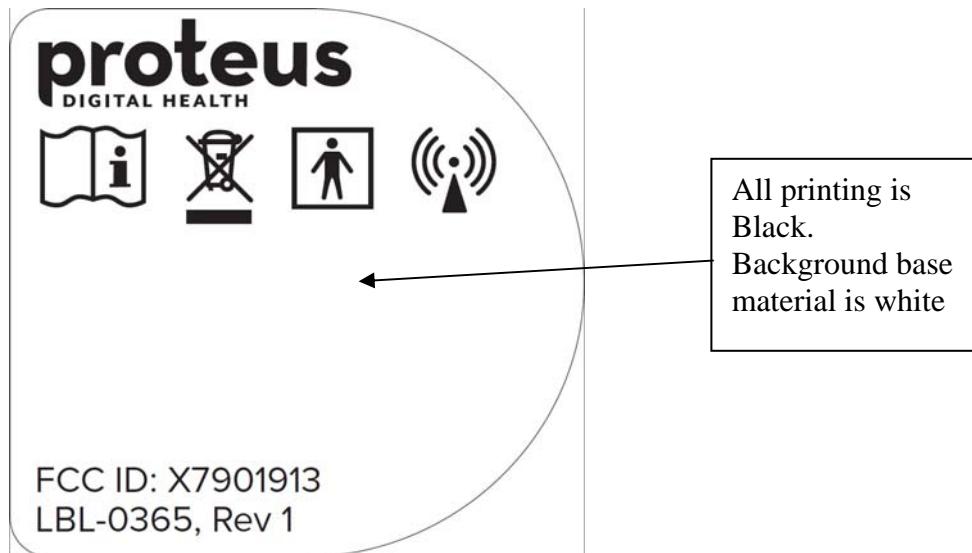

3.0 PROCUREMENT SPECIFICATION:

The following document should be used in conjunction with the artwork file to define the requirements.

Document Number	Description
SPC-1990	Procurement Spec for LBL-0365

4.0 GRAPHICS IMAGE:

Note: The image shows as square due to the challenge of importing the image into this document. The actual label is 'D' shaped.

**REVISION HISTORY**

DCO	Rev	Release Date	Description of Change	Originator
EtQ	1	EtQ	Initial release to support LBL-0365 label specification release.	T. Schoenberger
