A photograph of a blue printed circuit board (PCB) with various electronic components. The board is rectangular and populated with numerous integrated circuits, capacitors, and other surface components. A large, square, silver-colored component is prominent in the center. The board has several connectors along its edges, including a USB port, a FireWire port, and a D-sub connector. A ruler is placed horizontally below the board, showing measurements in centimeters. To the left of the board, there is a small, rectangular metal component and a black square component with a silver-colored square in the center.
