

Description of Permissive Change

The application is prepared for FCC class II permissive change by adding frequency band and VHT160 / HE160 modes through software enabling to its original parent application. The adding frequency band is from 5.26 to 5.32GHz and 5.50 to 5.72GHz.

Both devices, original and updated versions, are electrically identical in all aspects except enabling 160 MHz mode and frequency bands of 5260 ~ 5320 MHz and 5500 ~ 5720MHz.
