

Modular Approval Request Letter

FCC ID: XCO-HSBT070

Date: August 10, 2018

Gentlemen:

There's a Bluetooth module HSBT070A that would like to have your authorization as a modular approval. The specific product as below, with its designed features and specified description, meets special requirements for modular approval on FCC Part 15.212 and KDB996369 D01v02 by cross-reference list below.

Company	Hansong (Nanjing) Technology Ltd.
Model Number	HSBT070A
FCC ID	XCO-HSBT070

Requirement of FCC Part 15.212 and KDB996369 D01v02	
1. The modular transmitter must have its own RF shielding.	The module has its own RF shielding.
2. The modular transmitter must have buffered modulation/data inputs.	HSBT070A has only digital I/Os for data input or output. All these inputs are buffered in CSR chip (U1). Please see the schematic.pdf.
3. The modular transmitter must have its own power supply regulation.	All power lines derived from the host device are regulated before energizing other circuits internal to the HSBT070A. Please see the schematic.pdf.
4. The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c).	The HSBT070A meets the FCC antenna requirements. It has a unique IPEX connector and need special cable to connect to antenna OR permanent PCB antenna.
5. The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing.	The HSBT070A was tested in a stand-alone configuration.
6. The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The label position of HSBT070A is clearly indicated. Please see the "HSBT070A_FCC label.pdf".
7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	The HSBT070A is compliant with all applicable FCC rules. Detail instructions are given in the User Manual. Please see user manual.pdf.
8. The modular transmitter must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4).	The HSBT070A comply with applicable RF exposure requirements.

Thank you.
