

L Digital Operation Description

L Digital Block Diagram

Product feature

- 2.4G Wireless Digital camera Image with Audio communication
- Pan motor control from 2.4G Wireless Receiver
- Direct AV out from 2.4G wireless Receiver
- Two way sound communication

Operation

Camera image data through TX module transfer RF datae and the Receiver module Asic progressing Audio and Video direct output from TFT display, Pan Key control from RX module

Asic function processor detail

- Audio In/Out Processor
- Video In/Out Processor
- KeyPad control Buit In CPU
- 2.4G wireless module
