Modular Approval Request

FCC ID: XDULE50-S1A

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Yes, the radio frequency elements are shielded	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes, the module has buffered modulation/data inputs	
(c) The module must contain power supply regulation on the module	Yes, there is power supply regulation on the module	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Yes, the module use a custom designed antenna	
(e) The module must demonstrate compliance in a stand-alone configuration	Yes, the module was tested in a standalone configuration	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Yes, the FCC ID was moulded on the shield cover	
(g) The module must comply with all	Yes	

specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements		
--	--	--

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	Yes, the module meet the RF exposure requirements	

* Please provide a detailed explanation if the answer is "No."

Yours sincerely,
