How it Works

DOWNLOAD OhMiBod® Remote App

TURN ON blueMotion®

PAIR devices

Using blueMotion® - Modes of Operation

Cycling through modes: Once power is on, tap the button to cycles through modes.
The modes are as follows:

Bluetooth® Mode: Bluetooth® Connection (Blinking blue means awaiting connection with App)

Manual Modes: Low

Medium

High

Slow Throb

Fast Throb

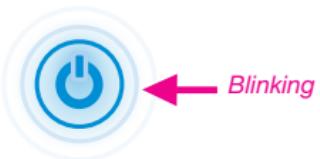

Press and hold the button for \sim 8 seconds to enter pairing mode. In this mode, you'll be able to connect with the App.

Using blueMotion® - 2 Modes of Operation

Bluetooth® Mode:

1. Press  2-3 seconds to turn on.

NOTE: *Blinking blue LED power button indicates vibe is ready to connect via Bluetooth®.*

2. Pair to phone/tablet.

Bluetooth® range up to 26ft (8m)

NOTE: *Pairing instructions can be found on next page.*

3. Launch OhMiBod® Remote App.

4. Press and hold  for 2-3 seconds to turn off.

NOTE: *After 30 minutes of non-use, the massager will automatically shut off to conserve battery life.*

Manual Mode:

1. Press  2-3 seconds to turn on.

2. Press  again to switch to manual mode. First pulsation is a continuous vibration. This confirms manual mode is active.

Press  to move to next pulsation pattern. There are a total of 4 pulsations. Pressing the button again will cycle back to Bluetooth® mode.

NOTE: *A white LED power button confirms manual mode.*

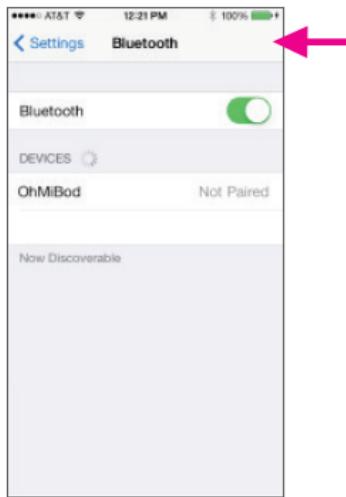

3. Press  for 2-3 seconds to turn off.

Pairing Your Phone/Tablet

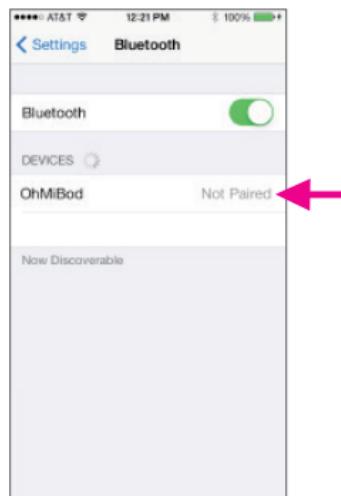

1. Turn on blueMotion® massager.

NOTE: *Blinking blue LED on power button indicates massager is ready to pair.*

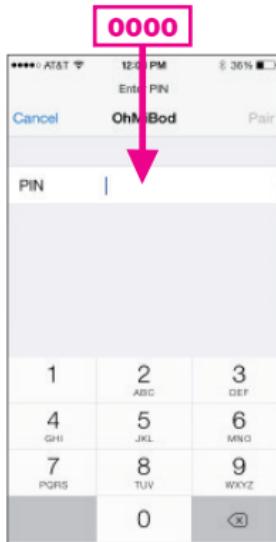

2. Open the Bluetooth® settings on your phone/tablet.

3. Select “OhMiBod”. This is the blueMotion® massager.

4. Select “Pair”, if prompted, enter the PIN 0000.

5. LED on power button glows steady () when massager is paired to phone/tablet.

OhMiBod.com/app.

Charging blueMotion®

Simply plug the USB charging cable provided with blueMotion® into the USB port on your computer or USB wall charger adapter. Connect the other end of the cable into the charging socket on the end of blueMotion® (see diagram). The LED on blueMotion® will blink indicating the massager is charging. Please be sure that the massager is completely dry before charging.

~ 1.5-2 HRS TO REACH FULL CHARGE 

LED will glow steady () when fully charged.

NOTE: The USB port is for charging use only, no data transmission functionality. When product is charging, the product will not be able to vibrate until the USB cable is removed from charging socket.

Troubleshooting

If the LED does not blink when the product is connected to the USB cable, check to make sure the USB cable is properly connected to the USB port and blueMotion®.

Battery Disposal

- blueMotion® contains a rechargeable battery. Please do not dispose of this product with normal household waste.
- Please dispose of this product at the appropriate electrical and electronic equipment recycling disposal locations in accordance with government regulations.
- The recycling of this product appropriately will help to protect our environment

No medical claims are warranted or implied by the use of this product.

FCC ID: XG50MBBM03

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
