

Date: February 25, 2014

We, **NetComm Wireless Limited**, hereby outline the difference between FCC ID: **XIA-NTC620002** and FCC ID: **XIA-NTC620003** as below.

FCC ID: **XIA-NTC620003** is identical to FCC ID: **XIA-NTC620002**, with only the exception of:

1. XIA-NTC620003 does not have GPS Function;
2. XIA-NTC620003 does not have I/O port.

Based on the similarity between two FCC IDs, we hereby request permission to use Part 22H/24E test data of FCC ID **XIA-NTC620002**. The current model under application uses an antenna of same type and same gain, we have verified the conducted output power on current model under application to show the compliance of FCC ID **XIA-NTC620003** regarding Part 22H/24E requirements. For RF Exposure assessment, the calculation is based on the highest output power in accordance with the tune-up procedure to show the compliance of both FCC IDs.

Sincerely,

A handwritten signature in black ink, appearing to read "Karl" or "Casey".

Casey Mak

Production Manager

NetComm Wireless Limited
