This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

RoHS Compliant

Plastic Bluetooth Keyboard for iPhone

User Guide
KB-6135

Congratulations on your purchase of the Wireless Bluetooth Keyboard, Please read this instruction book first!

Bluetooth Keyboard Specification and Pairing Instruction

1.0 Keyboard Specification

1. Bluetooth 2.0 interface standard
2. Operating Distance to 10 meters
3. Modulation System:GFSK
4. Operatin Voltage:3.0-5.0V
5. Working Current:<5.0mA
6. Standby Current:2.5mA
7. Sleeping Current:<200μA
8. Charging Current:≥100mA
9. Standby Time:45days
10. Charging Time:2-2.5 hours
11. Lithium Battery Capacity:200mA
12. Uninterrupted Working Time: 30 hours
13. Lithium Battery Life:3 years
14. Lithium Battery Specifications: 03x16x45
15. Key Life:5 million strokes
16. Operating Temperature:-10 - +55℃
