#### 8. Keyboard Specification

- 1.Bluetooth 3.0 interface standard 9. Standby Time:45 days 2.Operating Distance to 10 meters 10.Charging Time:2-2.5 hours 3.Modulation System:GFSK 11.Lithium Battery Capacity: 4. Operating Voltage: 3.0-5.0V 5 Working Current: <5 0mA 12.Uninterrupted Working Time: 6.Standby Current:2.5mA
- 7.Sleeping Current:<200µA 8. Charging Current: ≥100mA

13.Lithium Battery Specifications: 40 x16 x 3mm

200 mAh

30 hours

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception. which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: --Reorient or relocate the receiving antenna.

- --Increase the separation between the
- equipment and receiver.
- --Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Replaceable batteries

If an equipment is provided with a replaceable battery, and if replacement by an incorrect type could result an explosion(for example, with some lithium batteries), the following applies: -if the battery is placed in an OPERATOR ACCESS AREA, there shall be a marking close to the battery or a statement in both the operating and the servicing instructions; -if the battery is placed elsewhere in the equipment, there shall be a marking close to the battery or a statement in the servicing instructions.

This marking or statement shall include the following or similar text:

CAUTION:

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.
