3. iPad Air setting.

4.0 Charging

When the battery power is low, the [power] indicator light will start blinking, it is time to recharge the keyboard.

Step 1: Connect USB-B of the native USB power cable to the keyboard charging interface

Step 2: Connect USB-A to the power adaptor or computer's USB interface

Step 3: The [charge] red indicator light will stay on when the keyboard is charging. Once it finished charging, the [charge] indicator light will turn off.

6.0 Energy Saving Sleep mode

The keyboard will kick into sleep mode when it is inactive around 10 minutes, and the keyboard [power] indicator light will go off. To activate from sleep mode, just press any key and wait 3 seconds, the keyboard will come back on.

7.0 Troubleshooting

(A) Unable to connect

1. Make sure the power switch is on.
2. Make sure the keyboard is within the operating distance.
3. Make sure the battery is charged.
4. Make sure iPad Air Bluetooth setting is on.
5. Make sure wireless keyboard is connected to iPad Air.

(B) Unable to charge keyboard

1. Make sure the USB power cable is connected properly to the keyboard and the power source.
2. Make sure the wall charger is plug into the power outlet.

This device complies with Part 15C of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15C of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
--Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.

ULTRA-THIN PLASTIC BLUETOOTH KEYBOARD

SPECIALLY DESIGNED FOR IPAD AIR

Packing Contents:

1. Bluetooth Keyboard----- 1 PC
2. USB Power Charging Cable---- 1 PC
3. User Guide----- 1 PC

1.0 Product Features:

1. It is composed of 69 function keys.
2. Quite keystrokes design in order to avoid disturbing others.
3. Stylish and high grade protective PU leather case with stand for iPad Air.
4. High quality ultra-thin plastic Bluetooth keyboard.

5. One million times switch lifetime.
6. Combined QWERTY keyboard design.
7. Built in wireless Bluetooth 3.0.
8. Built in high-performance rechargeable lithium battery.

2.0 Keyboard Specification:

1. Operation Voltage: DC 3.0~5.0 V
2. Match Current: <15mA
3. Working Current: <3mA
4. Standby Current: ≤1mA
5. Sleeping Current: ≤150uA
6. Carrier Frequency: 2402-2480MHz
7. Type of battery: Li-ion Battery
8. Charging Voltage: DC 5V
9. Charging Current: 100 m
10. Bluetooth keyboard: Bluetooth vision 3.0

11. Modulation System: GFSK
12. Operating Distance: 0~10 meters, 360 degree centigrade
13. Operating Temperature: -5~45°C
14. Storage Temperature: -40~+70°C
15. Operating Humidity: 10~90% RH

3.0 Shortcut Keys:

- Return to iPad home screen
- Lock or unlock iPad Air screen
- Mute the sound
- Decrease the volume
- Increase the volume
- Dim monitor
- Brighten monitor
- Select all the content
- Copy the selected content
- Paste the copied content
- Cut the selected content
- Go to the previous song
- Play or pause song or movies
- Go to the next song

4.0 Bluetooth Keyboard Pairing

1. Automatic pairing:

Open the power switch, pairing light enter into searching status, after 5 seconds, keyboard will search paired device priority automatically while pairing light blinking. If three minutes is not connected, the keyboard will go into sleeping mode. For new device, follow the Bluetooth pairing steps and finish pairing. Once the connection is established successfully, the pairing light will stop flashing. If more than 10 minutes without using keyboard, it comes into sleeping mode. Pressing any key can wake up.

2. Manual Pairing:

When automatic connection fails, press key at the same time, pairing light blinking, repeat the Bluetooth pairing operation.

Remark: When the device pairing exists paired keyboard, and opened the automatic re-connect function, pairing may fail, please delete the paired keyboard device, and match again.

Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.
