Inquiry on 02/20/2017 :

Inquiry:

Hi,

According to KDB784748 D01 section 2.2,

If the device is subject to Certification:.... (3) include the appropriate compliance statement in Section 15.19(a). If the labelling area is considered too small and therefore it is impractical (smaller than the palm of the hand) to display the compliance statement, then the statement may be placed in the user manual or product packaging.....

Please kindly check the attached pdf. I have draw a palm and measure the size.

Please kindly confirm if the compliance statement can be placed in the user manual or product packaging when there is no surface of the product is larger than it according to the above KDB.

Thank you!

Best Regards,

June Chen
