Application for certification of FCC ID: (XL8PAU4000).

Dear Sirs,

The above product (XL8PAU4000) utilizes a GPRS modem module which is already approved:-

*FCC identifier: QIPTC63
IC: 267W-TC63
granted to Siemens AG.*

The pre-approved module integrated into this product is electrically and mechanically identical to that already approved. It has been integrated according to original grantee's instructions.

The antenna does not exceed the manufacturer's maximum gain for mobile and fixed operating configurations as originally approved.

Yours faithfully,

(John Raybone)

A handwritten signature in black ink, appearing to read "John Raybone". Below the signature, the name is printed in a standard black font.
