Such as vases, shall not be placed on apparatus. 5. WARNING: Please refer the information on exterior bottom enclosure for electrical and safety information

Use the devices where the ambient temperature is between 0 and 35° C(32 to 95° F). Low-or high-temperature conditions might cause the device to change its behavior to regulate its temperature. Using Android device in very cold conditions outside of its operating range might temporarily shorten battery life and could cause the device to turn off. Battery life will return to normal when you bring the device back to higher ambient

temperatures. Using the devices in very hot conditions can permanently shorten battery life.

before installing or operating the apparatus.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 f the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no uarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to

that were developed by independent scientific organizations through periodic and thorough evaluation of scientific

adio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.

ect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device

ay not cause harmful interference, and (2) this device must accept any interference received, including interference Specific Absorption Rate (SAR) information: This Tablet meets the government's requirements for exposure to radio waves. The guidelines are based on standards

studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Tablet has also been tested against this SAR limit. This devicewas tested for typical body-worn operations with the back of the phone kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of the phone. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and

Walmart stores, Inc Limited Warranty Walmart warrants this product against defects in material or workmanship for a period of one(1) year from

the original date of purchase. During this period, Walmart will replace a defective part with a new or refurbished part without a charge to you. If your unit is deemed unrepairable, onn. will replace the unit with a new or refurbished unit at Walmart's sole discretion. The customer is responsible for transportation cost and insurance charges(if applicable) to Corporate. It is the customer's responsibility to retain original packaging or provide like packaging in order to facilitate the warranty process. Walmart will incur no liability whatsoever to provide packaging for warranty items. Should the product be damaged due to insufficient packaging, the warranty may be voided. You must receive a return authorization number (RMA #) before sending the unit in for service. Service that is provided is warranted for the duration of the original warranty or 45 days whichever is greater.

It is strongly recommended to make a backup copy of the contents on your hard drive in case of operational failure. Walmart will not be held liable for content that is on the device. Retain a copy of the bill of sale to provide proof of purchase. The warranty extends only to defects in materials or workmanship as limited above and does not extend to a cracked screen, damaged USB or DC port, cosmetic damage, or any other products, parts or accessories that have been lost, discarded, damaged by misuse or accident, neglect, acts of God such as lightning, voltage surges in the home, improper installation, or serial number rendered illegible.

Walmart stores, Inc Limited Warranty

Need help? We're here for you every day from 7 a.m. – 9 p.m. CST.

Give us a call at 1-888-516-2630

You will be instructed on how your claim will be processed so have information available including date of purch ase, serial number and the problem with the product. Should a problem be determined to be within the limits of the warranty you will be provided with an(RMA) authorization number and instruction. Proof of purchase must be confirmed before any warranty service can be provided. Should a claim not be covered by the limited warranty, you will be asked whether you wish to have service provided for a fee.

pecific Absorption Rate (SAR) information:

This Tablet meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. ISED RF Exposure Information and Statement the SAR limit of Canada(ISED) is 1.6 W/kg averaged over one gram of tissue. Device types: Tablet has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the Tablet kept 0mm from the body. To maintain compliance with ISED RF exposure requirements, use

accessories that maintain an 0mm separation distance between the user's body and the back of the Tablet . The use of be clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with ISED RF exposure requirements, and should be avoided. nformations sur le débit d'absorption spécifique (DAS):

Cette tablette répond aux exigences du gouvernement en matière d'exposition aux ondes radio. Les lignes directrices so basées sur des normes élaborées par des organisations scientifiques indépendantes à travers une évaluation périodique et approfondie des études scientifiques. Les normes comprennent une marge de sécurité substantielle conçue pour assurer la

sécurité de toutes les personnes, quel que soit leur âge ou leur état de santé. Information et déclaration d'ISDE sur l'expositic aux RF la limite DAS du Canada (ISDE) est de 1,6 W/kg en moyenne sur un gramme de tissu. Types d'appareils: la tablette également été testée par rapport à cette limite SAR. Cet appareil a été testé pour des opérations typiques portées sur le col avec le dos de la tablette gardé à 0 mm du corps. Pour maintenir la conformité avec les exigences d'exposition RF d'ISDE, utilisez des accessoires qui maintiennent une distance de séparation de 0 mm entre le corps de l'utilisateur et l'arrière de la ablette. L'utilisation de clips de ceinture, d'étuis et d'accessoires similaires ne doit pas contenir de composants métalliqu dans son assemblage. L'utilisation d'accessoires qui ne satisfont pas à ces exigences peut ne pas être conforme aux exigences d'exposition aux RF d'ISDE et doit être évitée.

The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

L'appareil destiné à fonctionner dans la bande 5150-5250 MHz est uniquement destiné à une utilisation en intérieur afin de réduire le potentiel d'interférences nuisibles aux systèmes mobiles par satellite cocanaux.
