

Statement

We **Quectel Wireless Solutions Co., Ltd** declare the following models.

Product Name: LTE Cat M & Cat NB Module

Model Name: **BG951A-GL**,

BG951A-GL use ALT1250 chip, share the same chipset baseline, the same hardware design, and also support the same frequency bands. The only differences are:

BG951A-GL supports from Cat NB1 (3GPP R13) to Cat NB2 (3GPP R14) only by FW updating, the hardware remains the same.

3GPP Release 14 upgrade from Release 13 is a software upgrade, there is no hardware change for it.

Your assistance on this matter is highly appreciated.

Sincerely, 

Name: Jean Hu
