

MODULAR APPROVAL LETTER
OR
LIMITED MODULAR APPROVAL LETTER

FCC ID: XMZSM03

Item	Requirements	EUT
1	The modular transmitter must have its own RF shielding	Radio part is not covered with its own RF shielding. The EUT shall be sold to OEM integrators and manufacturers for installation in a specific host device. The OEM manufacturer or OEM integrator shall use comply with the FCC rules. The OEM manufacturer or OEM integrator shall apply for new FCC ID certification of the final product with the help of this limited approved module design.
2	The modular transmitter must have buffered modulation/data inputs.	The modular transmitter has buffered modulation/data inputs.
3	The modular transmitter must have its own power supply regulation.	The modular transmitter supply power. It wrote on report.
4	The modular transmitter must comply with the antenna and transmission system requirements of sections 15.203, 15.204(b) and 15.204(c)	The modular transmitter use wire antenna. It complied requirements of 15.203, 15.204(b), 15.204(c).
5	The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing. This is intended to demonstrate that the module is capable of complying with Part 15 emission limits regardless of the device into which it is eventually installed.	It tested in a stand-alone configuration.
6	The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label can use wording such as the following: "Contains Transmitter Module FCC ID: XYZMODEL1" or "Contains FCC ID: XYZMODEL1." Any similar wording that expresses the same meaning may be used. The Grantee may either provide such a label, an example of which must be included in the application for equipment authorization, or, must provide adequate instructions along with the module which explain this requirement. In the latter case, a copy of these instructions must be included in the application for equipment authorization	<p>Module is labeled with its own FCC ID: XMZSM03</p> <p><i>(Add the following information in the user manual of FCC ID: XMZSM03)</i></p> <p>If the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label shall be: "Contains FCC ID: XXXYYYYYYY</p>

7	<p>The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.</p>	<p>If the test report is compliant, then refer to the test report and declare that this point has been fulfilled</p>
8	<p>The modular transmitter must comply with any applicable RF exposure requirements.</p>	<p>The module is approved for use in products operating as mobile and portable transmitting devices with respect to 2.1091 and 2.1093. This grant is valid only when sold to OEM integrators and OEM manufacturers. OEM manufacturers, integrators and end-users shall be provided with transmitter operation conditions for satisfying RF exposure compliance</p>
