

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) populated with various electronic components. The board is irregularly shaped and features a central integrated circuit (IC) with a circular logo. Other components include several electrolytic capacitors, resistors, and smaller surface-mount components. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, showing measurements from 0 to 100 mm on the left and 0 to 300 mm on the right.
Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) populated with various electronic components. The board is rectangular and features a central integrated circuit (IC) with a circular logo. Other components include several electrolytic capacitors, resistors, and smaller surface-mount components. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, showing measurements from 0 to 100 mm on the left and 0 to 300 mm on the right.

Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) with various electronic components and solder joints. The board is placed on a blue textured surface. A ruler is visible at the bottom and left, showing measurements in millimeters.
Antenna View	 A photograph of the internal components of a device, showing the main PCB and three antennas. Red boxes and lines identify the components: 'WIFI Antenna 2' (top left), 'WIFI Antenna 1' (top right), and 'Bluetooth Antenna' (bottom left). The device is housed in a silver metal casing.
