WARRANTY POLICY

Atyme Corporation Warranty Policy

Products purchased in the USA

Dear Customer,

We are pleased that you have chosen Atyme for your family's entertainment. Please be assured that Atyme adheres to the highest standards and quality to deliver maximum performance at an affordable price.

If you should have any difficulties, please first consult your user manual. If you need further assistance you can go to our website at www.atyme.net and open a ticket or contact our customer service department at support@atyme.net

If it is determined that repair is needed one of our customer service representatives will contact you and set-up service. Depending on the size of your TV we will either pick-up your TV, give you a drop-off location or send a technician to your home. Only 37" LCD size and above are applicable for in-home service. Please see below for in warranty and normal use definitions:

■ Warranty Terms

The warranty starts the day you purchase your new Atyme TV and continues for 12 months from purchase date found on your receipt. If you have lost your receipt and need service your warranty starts three months from the date of manufacture as indicated on the back cabinet of your TV.

For a period of 12 months after purchase we'll pay an authorized service center for any defects in material or workmanship in your television. This includes; labor, parts (new or refurbished at our discretion), LED panel (new or refurbished at our discretion). Repair is limited to items purchased in the United States and as such can only be repaired in the United States. If your television is deemed unrepairable we will provide you with a refurbished unit of the same or better model.

■ What is not covered under the one-year manufacturer's warranty?

The warranty excludes, or does not apply if:

- The proof-of-purchase has been altered in any way or is made illegible.
- The model number, serial number or production date code on the product has been altered, removed or made illegible.
- Repairs or product modifications have been carried out by unauthorized service organizations or persons.
- The defect is the result of excessive use outside the intended purpose.
- The defect is caused by abuse of the product or by environmental conditions that are not in conformance with the user manual of the product.
- The defect is caused by connecting peripherals, additional equipment or accessories other than those recommended in the user manual.
- The unit has been damaged, including but not limited to damage by animals, lightning, abnormal voltage, fire, natural disaster, transportation or water.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

WARRANTY POLICY

Atyme Corporation Warranty Policy

Products purchased in the USA

- The product does not function properly because it was not originally designed, manufactured or approved for use in the country where you use the product, which might occur when you imported the product.

- The product does not function properly due to problems with access to, or connection with service providers, such as interruptions in the access networks (e.g. TV cable, satellite or internet), faults on the subscriber's or the correspondent's line, local network fault (cabling, file server, user's line) and faults in the transmission network (interference, scrambling, faults or poor network quality).

- The product is not covered under warranty if used for commercial, institutional or rental purposes.
- The product is not covered under warranty if the TV screen (internal) is cracked or damaged due to an accident or misuse.

■ How to Obtain Service

For assistance (U.S.A) - If you purchased Atyme product in U.S.A, please go to our website at www.atyme.net or email to support@atyme.net

Our customer service representatives will review your options for service and explain in detail the repair process.

Proof of purchase such as original receipt, will be required for repairs and replacement.
