

1:10 Scale
R/C VEHICLE
Instruction Manual

This toy is not suitable for children under the age of 3 as it contains small parts that could be swallowed. We recommend using this product under the supervision of an adult. Remove all packaging before giving to the child.

PREPARING THE TRANSMITTER

A). Remove the battery cover.

B). Install 4 X AA battery (not included), pay attention to the "+" and "-" indication. Then close the cover.

C). Throttle and steering Instruction.

PREPARING THE R/C CAR

A). To Charge battery: Connect USB to battery. Insert USB cable into computer, or use electric adapter. Requires 3-4 hours of initial charge time. Red light will go out when charge is complete.

B). According to the illustration, open the battery cover.

C). Open the battery cover and insert battery, paying attention to the black and red wire. Replace the cover for running.

PAIRING THE CAR WITH CONTROLLER

A). Turn the switch on the controller first, the LED light will be red.

B). Turn the car on next to connect the car with the controller. If the car does not go straight, adjust the trimmer button.

C). If there are multiple cars in the same area, each user must turn on their controller and cars and pair one after the others. Wait for connection and then turn on additional vehicles. Turning all on at the same time will cause frequency interference.

Warning : Turn power switch to the OFF position on the car after use or the battery will be damaged.

OPERATION

LEFT TURN FORWARD

Pull the throttle trigger and turn steering wheel back.

RIGHT TURN FORWARD

Pull the throttle trigger and turn steering wheel forward

LEFT TURN REVERSE
